

IT'S BEEN A RECORD-BREAKING YEAR AT MOLSON GROUP

What a year it's been at Molson Group. We've had a record year, in every possible way – a record number of machines out of the gates, record turnover, record growth. And we've become an international business through the acquisition of Powerscreen of California and Powerscreen of Washington.

This is all impressive stuff. But let's not forget that behind these headlines are the people who make it all possible at Molson Group. Our people. And as well as working hard and contributing to the success of Molson Group as a business, they're coming together to do some amazing things, supporting their local communities and championing important causes.

Our Community Champions have organised some amazing fundraising initiatives, from supporting foodbanks in across the UK, undertaking sponsored walks, running coordinated Macmillan coffee mornings across our locations, supporting charity balls, dressing up as Santa, paddleboarding for Frank Water and so much more. You name it, our people have done it. Molson Group also became a founding member of Plant & Hire Aid Alliance, and people across the business joined forces to collect a vast amount of aid donations, and then travelled in vans to deliver that aid to Ukraine via Slovakia.

Robin Powell, group Managing Director, sums it up: "Our people have been amazing this year, professionally and personally. We've had our most successful year to date and the prospects for the year ahead are extremely positive. But when I look back on the past 12 months, the things that really stand out for me are the enormous efforts people have gone to in supporting some really important causes. It's a cliché to say that a company is only as good as its people, but it's true, and at Molson Group, we really have lucked out."
