

Service plans keep your business running

A Service Plan from Molson Equipment is an easy and convenient way of managing the cost of ownership of your machine for a fixed monthly fee. All Service Plans include all parts, lubricants, labor and travel costs so you will have nothing else to pay and no fear of hidden charges.

Molson Service Director, Martyn Tucker explains; "A careful study of our statistics shows that customers are having far fewer problems with their machines if they have taken out a Service Plan.

"With their machines serviced by our own factory trained engineers using genuine parts and the recommended oils, we are more likely to notice if there is a problem before it develops. This means that potential problems are able to be foreseen, making it more about prevention and less about repairs".

A tailor fit for your business.

By first understanding your work demands, the expert service team across all Molson Group businesses are able to tailor a Service Plan specifically to your business to ensure your machine is kept running

smoothly, ensuring your productivity is not compromised.

We have the package to suit your business whatever your application.

With options including additional "Arduous" packages that have been

designed for machines that work in extremely challenging environments,

such as demolition or recycling applications, or on sites with minimal

airflow, eg. working indoors.

Flexible and reliable.

Agreements are based on an agreed projection of hours each machine is

expected to be used each year and can vary in length from 12 to 60

months, allowing you to protect your business from future price

increases from inflation and other external factors for the expected

life of your new machine.

By utilising the manufacturers in-built telematics systems, we are

able to know exactly when your machine is due for routine servicing,

enabling you to focus on your core business with the peace of mind your

machine is in the expert's hands.

Want to see if you can take out a Service Plan?

Service Plans are available on all new machines purchased from any

Molson Group company, just ask a member of our sales team for more

information and cost details. If you would like to cover a

machine you

already have in your fleet, please complete [our contact form](#) and our knowledgeable service team will get in touch.
